Subject Index

- Acetylcholine receptor
 - comparison of antigenic sources for acetylcholine receptor antibody assays in myasthenia gravis (McAdams and Roses), 61
 - lymphocyte responsiveness to acetylcholine receptor in rats with experimental autoimmune myasthenia gravis (Noguchi et al), 32
- Acne fulminans
 - acne fulminans with inflammatory myopathy (Noseworthy et al), 67
- Acute anterior poliomyelitis
 - glial bundles of nerve roots in Werdnig-Hoffman disease (Chou), LETTER, 79; reply (Iwata and Hirano), LETTER, 81
- Acute lymphocytic leukemia
 - long-term neurological implications of somnolence syndrome in children with acute lymphocytic leukemia (Ch'ien et al), 273
- Ad hoc reviewers
 - notice from the editor, 11
- Adie's syndrome
 - spasms of iris sphincter (Thompson and Corbett), 547
- Adrenergic function
 - C-6 glioma growth in rats, suppression with β -adrenergic agonist and phosphodiesterase inhibitor (Chelmicka-Schorr et al), 447
 - lymph nodes, possible site for sympathetic neuronal regulation of immune responses (Giron et al), 520
- Adrenoleukodystrophy
 - skin and conjunctival nerve biopsies in adrenoleukodystrophy and its variants (Martin et al), 291
- Age
 - age effect on dopamine and serotonin metabolite levels in cerebrospinal fluid (Seifert et al), 38
- Agraphia
 - alexia without agraphia (Vincent and Reeves), LETTER, 206
- Alcoholism
 - methanol poisoning (McLean et al), 161
- Alexia
 - alexia without agraphia (Vincent and Reeves), LETTER, 206
- Aluminum toxicity
 - aluminum chloride induced neurofibrillary changes in developing rabbit (Wisniewski et al), 479
- Alzheimer disease
 - altered protein composition of isolated human cortical neurons in Alzheimer disease (Selkoe), 468
 - more on myoclonus in Alzheimer disease (Mayeux), NOTE, 200
- Amantadine
 - review of 38 cases of subacute sclerosing panencephalitis, effect of amantadine on natural course of disease (Robertson et al), 422
- American Neurological Association
 - abstracts for 105th annual meeting, 90
 - program for 105th annual meeting, 83
- Amyotrophic lateral sclerosis
 - amyotrophic lateral sclerosis among Chamorro migrants from Guam (Garruto et al), 612
 - plasmapheresis in amyotrophic lateral sclerosis (Olarie et al), NOTE, 644
- Aneurysms
 - pupil in cavernous sinus aneurysm (Boghen), LETTER, 202
 - transient focal cerebral ischemia as presenting manifestation of unruptured cerebral aneurysms (Fisher et al), 367
- Animal models
 - aluminum chloride induced neurofibrillary changes in developing rabbit (Wisniewski et al), 479
 - antiserum-mediated demyelination, relationship between remyelination and functional recovery (Saida et al), 12
 - basal lamina formation at site of spinal cord transection (Feringa), 148
 - benzodiazepine receptor interactions may be involved in neurotoxicity of various penicillin derivatives (Antoniadis et al), 71
 - brain tissue from persons dying of Creutzfeldt-Jakob disease causes scrapie-like encephalopathy in goats (Hadlow et al), 628
 - C-6 glioma growth in rats, suppression with β -adrenergic agonist and phosphodiesterase inhibitor (Chelmicka-Schorr et al), 447
 - changes in endoneurial fluid pressure, permeability, and peripheral nerve ultrastructure in experimental lead neuropathy (Myers et al), 392
 - correlation of intracellular redox states and pH with blood flow in primary and secondary seizure foci (Tenny et al), 564
 - dissociation of cerebral blood flow, metabolism, and function in early stages of developing cerebral infarction (Kogure et al), 278
 - distal neuropathy in experimental diabetes mellitus (Brown et al), 168
 - immunoregulation in multiple sclerosis (Arnason and Waksman), CONFERENCE REPORT, 237
 - lymph nodes, possible site for sympathetic neuronal regulation of immune responses (Giron et al), 520
 - lymphocyte responsiveness to acetylcholine receptor in rats with experimental autoimmune myasthenia gravis (Noguchi et al), 32
 - nonaminergic striatal neurons convert exogenous L-dopa to dopamine in parkinsonism (Melamed et al), HYPOTHESIS, 558
 - remyelination following viral-induced demyelination, ferric ion-ferrocyanide staining of nodes of Ranvier within the CNS (Weiner et al), 580
 - restoration of dopaminergic function by grafting of fetal rat substantia nigra to caudate nucleus (Freed et al), 510
 - section of pituitary stalk in rhesus monkey (Antunes et al), 308
 - sustained limbic seizures induced by intraamygdaloid kainic acid in baboon (Menini et al), 501
- Antibodies. *See* Immune response
- Anticonvulsants
 - congestive heart failure during carbamazepine therapy (Terrence and Fromm), NOTE, 200

July issue, pp 1-132; August issue, pp 133-236; September issue, pp 237-342; October issue, pp 343-454; November issue, pp 455-550; December issue, pp 551-648.

- Anticonvulsants** (*continued*)
 drug error in anticonvulsant therapy (Massey), LETTER, 452
 phenytoin-induced cerebellar degeneration (Koller et al), LETTER, 203
- Astereognosis**
 brainstem tumor presenting with unilateral astereognosis (Feinsod et al), 191
- Astrocytoma**
 meningeal gliomatosis (Yung et al), 605
 serum gangliosides in cerebral astrocytoma (Lo et al), 534
- Asymmetry**
 occipital horn asymmetry in children (Strauss and Fitz), 437
 cerebral asymmetry and verbal intellectual deficits (Rosenberger and Hier), 300
- Ataxia**
 cerebellar dyssynergia in humans (Miller and Freund), 574
 failure to detect abnormal fatty acid profiles in serum lipoproteins in Friedreich's ataxia (Walker et al), 74
 intermittent ataxia and immunodeficiency with multiple carboxylase deficiencies, a biotin-responsive disorder (Sander et al), 544
 normal pyruvate dehydrogenase complex activity in patients with Friedreich's ataxia (Constantopoulos et al), 636
 reduced enzyme activities in inherited ataxia (Kark et al), LETTER, 342
- Atrial myxoma**
 subsequent neurological events in patients with atrial myxoma (Sandok et al), 305
- Authorship**
 error in omitting author's name (McKhann), LETTER, 550
 failure to include coauthor of paper (Moser), LETTER, 648
- Autonomic nervous system**
 acute autonomic and sensory neuropathy (Colan et al), 441
- B cell hyperactivity**
 defective immunoregulation in multiple sclerosis (Goust et al), 526
- Baboons**
 sustained limbic seizures induced by intraamygdaloid kainic acid in the baboon (Menini et al), 501
- Baclofen**
 treatment of periodic alternating nystagmus (Halmagyi et al), 609
- Basal lamina**
 basal lamina formation at site of spinal cord transection (Feringa et al), 148
- Benzodiazepine receptor**
 benzodiazepine receptor interactions may be involved in neurotoxicity of various penicillin derivatives (Antoniadis et al), 71
- Biochemical markers**
 cerebrospinal fluid biochemical markers of central nervous system metastases (Schold et al), 597
- Biogenic amines**
 age effect on dopamine and serotonin metabolite levels in cerebrospinal fluid (Seifert et al), 38
 barrier mechanisms for neurotransmitter monoamines and their precursors at the blood-brain interface (Hardebo and Owman), EDITORIAL REVIEW, 1
- Biopsy**
 cryoglobulinemic neuropathy (Vallat et al), 179
 human diabetic endoneurial sorbitol, fructose, and myo-inositol related to sural nerve morphometry (Dyck et al), 590
 Lafora disease, diagnosis by liver biopsy (Nishimura et al), 409
 muscle metals in motor neuron disease (Pierce-Ruhland and Patten), 193
 skin and conjunctival nerve biopsies in adrenoleukodystrophy and its variants (Martin et al), 291
- Biotin**
 intermittent ataxia and immunodeficiency with multiple carboxylase deficiencies, a biotin-responsive disorder (Sander et al), 544
- Blindness**
 blindness following tentorial herniation (Keane), 186
- Blood-brain barrier**
 barrier mechanisms for neurotransmitter monoamines and their precursors at the blood-brain interface (Hardebo and Owman), EDITORIAL REVIEW, 1
- Bone marrow suppression**
 sodium valproate and bone marrow suppression (Smith and Boots), 197
- Books**, 236
- Brachial plexus**
 brachial plexus involvement in familial pressure-sensitive neuropathy (Bosch et al), 620
- Brain**. *See also under Cerebral*
 generalized chorea associated with chronic subdural hematomas (Bae et al), 449
 neonatal intracranial abscess, two cases caused by *Citrobacter* and a literature review (Curless), 269
 neuroendocrinology and brain peptides (Cooper and Martin), NEUROLOGICAL PROGRESS, 551
 progressive white matter destruction following irradiation of extracranial neoplasm (Rottenberg et al), 76
- Brain damage**
 long-term cerebral effects of small doses of X-irradiation in childhood as manifested in adult visual evoked responses (Yaar et al), 261
 occipital horn asymmetry in children (Strauss and Fitz), 437
 progressive white matter destruction following irradiation of extracranial neoplasm (Rottenberg et al), 76
- Brain death**
 extracerebral electrical potentials in the electroencephalogram in irreversible coma (Matsuo), LETTER, 646
- Brain grafts**
 restoration of dopaminergic function by grafting of fetal rat substantia nigra to caudate nucleus (Freed et al), 510
- Brain herniation**
 blindness following tentorial herniation (Keane), 186
- Brain tumors**
 alexia without agraphia (Vincent and Reeves), LETTER, 206
 brainstem tumor presenting with unilateral astereognosis (Feinsod et al), 191
 C-6 glioma growth in rats, suppression with β -adrenergic agonist and phosphodiesterase inhibitor (Chelmickas-Schorr et al), 447
 retraction nystagmus elicited by bilateral simultaneous cold caloric stimulation (Singh and Strobos), 79
 serum gangliosides in cerebral astrocytoma (Lo et al), 534

- Bromocriptine
incontinence of urine with long-term bromocriptine therapy (Gopinathan and Calne), LETTER, 204
- Bronchopulmonary dysplasia
progressive central nervous system deterioration, complication of advanced chronic lung disease of prematurity (Ellison and Farina), 43
- Bulbar palsy
progressive bulbar palsy of childhood in siblings (Benjamins), LETTER, 203
- C-6 glioma
C-6 glioma growth in rats: suppression with β -adrenergic agonist and phosphodiesterase inhibitor (Chelmicka-Schorr et al), 447
- Caloric stimulation
retraction nystagmus elicited by bilateral simultaneous cold caloric stimulation (Singh and Strobos), 79
- Cancer. *See* Brain tumors; Tumors
- Carbamazepine
congestive heart failure during carbamazepine therapy (Terrence and Fromm), NOTE, 200
drug error in anticonvulsant therapy (Massey), LETTER, 452
- Carpal tunnel syndrome
slowed nerve conduction with wrist flexion in carpal tunnel syndrome (Schwartz et al), 69
- Cats
correlation of intracellular redox states and pH with blood flow in primary and secondary seizure foci (Tenny et al), 564
- Caucasians
multiple sclerosis in a migrant population: half-Oriental immigrants in childhood (Kurtzke and Bui), 256
- Cavernous sinus
pupil in cavernous sinus aneurysm (Boghen), LETTER, 202
- Central nervous system
cerebrospinal fluid biochemical markers of central nervous system metastases (Schold et al), 597
neuroendocrinology and brain peptides (Cooper and Martin), NEUROLOGICAL PROGRESS, 551
remyelination following viral-induced demyelination, ferric ion-ferrocyanide staining of nodes of Ranvier within the CNS (Weiner et al), 580
- Central nervous system deterioration
progressive central nervous system deterioration, complication of advanced chronic lung disease of prematurity (Ellison and Farina), 43
treatment of Reye syndrome, importance of clinical staging (Tomasi), LETTER, 201; reply (Trauner), LETTER, 202
- Central nervous system metabolism
age effect on dopamine and serotonin metabolite levels in cerebrospinal fluid (Seifert et al), 38
failure of intravenous and intrathecal cytarabine to modify central nervous system IgG synthesis in multiple sclerosis (Tourtellotte et al), 402
- Central nervous system regeneration
basal lamina formation at site of spinal cord transection (Feringa et al), 148
- Central pontine myelinolysis
kernicterus and central pontine myelinolysis in a 14-year-old boy with fulminating viral hepatitis (Ho et al), 633
- Cerebellar degeneration
phenytoin-induced cerebellar degeneration (Koller et al), LETTER, 203
- Cerebellar syndrome
phenytoin-induced cerebellar degeneration (Koller et al), LETTER, 203
- Cerebellum
cerebellar dyssynergia in humans (Miller and Freund), 574
cerebellar softening (Scotti et al), 133
multifocal eosinophilic granuloma and the cerebellum (Thorpy and Crosley), LETTER, 454
- Cerebral abscess
neonatal intracranial abscess, two cases caused by *Citrobacter* and literature review (Curless), 269
- Cerebral aneurysm
transient focal cerebral ischemia as presenting manifestation of unruptured cerebral aneurysms (Fisher et al), 367
- Cerebral asymmetry
cerebral asymmetry and verbal intellectual deficits (Rosenberger and Hier), 300
- Cerebral blood flow
barrier mechanisms for neurotransmitter monoamines and their precursors at the blood-brain interface (Hardebo and Owman), EDITORIAL REVIEW, 1
correlation of intracellular redox states and pH with blood flow in primary and secondary seizure foci (Tenny et al), 564
dissociation of cerebral blood flow, metabolism, and function in early stages of developing cerebral infarction (Kogure et al), 278
effects of stroke on local cerebral metabolism and perfusion, mapping by emission computed tomography of ^{18}F FDG and ^{13}N H $_3$ (Kuhl et al), 47
epileptic patterns of local cerebral metabolism and perfusion in humans determined by emission computed tomography of ^{18}F FDG and ^{13}N H $_3$ (Kuhl et al), 348
- Cerebral dominance
occipital horn asymmetry in children (Strauss and Fitz), 437
- Cerebral embolism. *See also* Stroke
subsequent neurological events in patients with atrial myxoma (Sandok et al), 305
- Cerebral function
dissociation of cerebral blood flow, metabolism, and function in early stages of developing cerebral infarction (Kogure et al), 278
- Cerebral hemorrhage. *See also* Stroke
hepatic cirrhosis and intracranial hemorrhage (Boudouresques et al), LETTER, 204
lobar cerebral hemorrhages (Ropper and Davis), 141
seasonal (circannual) periodicity of spontaneous intracerebral hemorrhage in Minnesota (Ramirez-Lassepas et al), 539
- Cerebral infarction. *See also* Stroke
dissociation of cerebral blood flow, metabolism, and function in early stages of developing cerebral infarction (Kogure et al), 278
- Cerebral ischemia. *See also* Stroke
transient focal cerebral ischemia as presenting manifestation of unruptured cerebral aneurysms (Fisher et al), 367

Cerebral metabolism

- barrier mechanisms for neurotransmitter monoamines and their precursors at the blood-brain interface (Hardebo and Owman), EDITORIAL REVIEW, 1
- correlation of intracellular redox states and pH with blood flow in primary and secondary seizure foci (Tenny et al), 564
- dissociation of cerebral blood flow, metabolism, and function in early stages of developing cerebral infarction (Kogure et al), 278
- effects of stroke on local cerebral metabolism and perfusion, mapping by emission computed tomography of ^{18}F FDG and ^{15}N H₂ (Kuhl et al), 47
- nonaminergic striatal neurons convert exogenous L-dopa to dopamine in parkinsonism (Melamed et al), HYPOTHESIS, 558

Cerebral thrombosis. See also Stroke
